## About us

SOAIS is a service provider of Enterprise IT solutions revolving around Oracle PeopleSoft suite of products. Since its inception, SOAIS has successfully created an impact with all its clients and expanded at a tremendous pace. The organization has customers ranging from both mid-market and Fortune 100 companies and delivered significant business value in a short time. It has become a vendor of choice for its customers with the ability to provide end to end enterprise solutions with a definite vision “To be a globally respected integrated solution provider to our clients such that we are held in awe for our passion and execution capabilities”.

SOAIS is driven by passion, people and process to ensure that we constantly better the value delivered to our customers. We focus on maximizing customer's returns through our global delivery model. SOAIS is headquartered in Bangalore with offices in Gurgaon (India) and Chicago.

## Area of Focus : PeopleSoft

## Global Delivery Model

SOAIS has mastered the science of delivering optimum value to clients using customer site, near shore and/or remote based solutions for every solution offering. Each client engagement is assessed to deliver maximum value to the client depending on the type of service, connectivity and security policies needed for client interaction. SOAIS Global delivery methodology provides standards, tools and templates for seamless multi-location solution execution. All work packets in an engagement are stitched together by mature Project Management frameworks, quality processes, templates and communication methods.

## Our Customer Says

“Everything that we could've ever asked for, SOAIS delivered. Their commitment to excellence and customer satisfaction is unmatched, and their final product speaks for itself.”

– Fortune 100 Manufacturing Firm

## Upgrade Solutions

SOAIS delivers a comprehensive set of Upgrade solutions aimed at meeting your changing business needs, technology upgrade and compliance requirements.

SOAIS upgrade services are categorized to meet various upgrade strategies used by different customers to meet their specific requirements. SOAIS upgrade services include:

- Full Service Upgrade
- Functional Assessment and testing
- Technical Upgrade
- Batch SQR Upgrades
- Reapplication of customizations

## SOAIS' typical End-to-End Upgrade Methodology

SOAIS Upgrade methodology is designed to maximize your investment in Peoplesoft and quickly deploy Peoplesoft Applications to manage your business functions.

SOAIS Solution Center, located in Chicago, offers remote functional configuration support, technical upgrade support and utilizes SOAIS offshore Solution Center to reduce the Total cost of Delivery.
