

Dear Default Value,

## Welcome to SOAIS Newsletter of April 2021!

Nearly 90% of organizations shifting to SAP S/4 HANA who cited “minimizing operational disruption” as the most important requirement for migration. Resilience and system availability are top of mind as thousands of organizations build and evaluate their business case and prepare to make the leap to S/4HANA. Learn how engaging scalable automation before, during and after an S/4 migration can help ensure delivery without disruption and provide the tools and insights necessary to keep pace with rapid, pervasive change without compromising quality. Worksoft is organizing a Webinar on “S/4HANA Unlocked” on Thursday, May 6 at 10:00 AM CT/15:00 UTC.

### Another Customer Added

SOAIS, in partnership with Worksoft, has added a new customer to its fold, a Glass and Ceramic Materials company based in US. The customer wants to automate their SAP Fiori upgrade across a global landscape that dramatically simplifies and speeds test automation to accelerate ROI for SAP S/4 HANA, SAP Fiori, and other SAP software implementations.

### SOAIS Blog – Working with PRIMO

There are objects which Certify Live Touch is unable to learn at times. The PRIMO Container Editor creates object definitions that can be used by Worksoft interfaces to identify objects on the screen that cannot be recognized any other way. Certify Silverlight interface supports PRIMO Container Editor. This tool should only be used to define controls that you are unable to learn with Certify Live Touch for Silverlight like images.

### Worksoft Blog –Metso Outotec Saves Time & Enhances Quality with Worksoft Automation

Metso Outotec, a leader in sustainable minerals processing technologies, chose Worksoft to automate testing for SAP to improve their efficiency and quality over their existing manual test processes. Like many enterprises that rely exclusively on manual testing, the company struggled with costly, time-consuming regression testing, challenges with adequate test coverage, and lag time for results and reporting.
