

Dear Default Value,

## Welcome to SOAIS Newsletter of September 2021!

### Fast Formula in Oracle Cloud Applications

At SOAIS, our team has made extensive use of this powerful tool of Oracle Cloud Applications, called Fast Formula, for a number of our customers. Our consultants have used this feature over multiple modules like Absence Management, Payroll, Compensation Management, etc. These small customizations using Fast Formula, have benefitted our customer in leveraging the potential of the Oracle Cloud Applications.

Click [here](#) to know more about us.

### Oracle Cloud Support from Experts

One of our customers was looking for a reliable and technically sound partner to stabilize and enhance the system usage and functions. They engaged us to stabilize the Application first so that they can then focus on improving the usage of the application by enhancing some of the features.

- SOAIS deployed a shared services support team to take care of multiple modules
- Helped validate processes and fixed issues for smooth running of the Application

Customer was extremely satisfied with our services.

### SOAIS Blog: Oracle Digital Assistant for HCM “Hello-Hire-Retire”

Oracle Digital Assistant (ODA) for HCM is designed to enhance overall employee experience within an organization. ODA is backed by AI to be able to provide guidance and answers to employees' questions so that HR can focus on more impactful projects. It also provides personalized employee experience to global workforce.
