

Dear Default Value,

## Welcome to SOAIS Newsletter June 2021!

### SOAIS All the way!

Recently, one of SOAIS' customers were part of a major acquisition. The customer, a BFSI firm offering a bouquet of Financial products, uses PeopleSoft HCM 9.2 for managing its HR data. Team SOAIS was responsible for the seamless merging of employee data into the PeopleSoft system, with zero errors. This enabled the customer to quickly onboard the new set of employees and continue operations with absolutely no hiccups.

#### Rock Solid SOAIS Delivery

What does it take to transition over a highly escalated project and come out a winner? Rock Solid Delivery.

That is what SOAIS excels at. Taking over a wounded project and coming out unscathed is not a miracle, but the synergy of the experiences that SOAIS brings to its customers.

SOAIS has been the pillar of many customers' Oracle applications providing world class solutions to solve customer problems.

Do you have a problem? Let SOAIS solve it for you.

#### Migrating Apps from ADF to VBCS

Oracle offers a variety of frameworks to build extensions to your SaaS application, one of them being ADF.

However, with the advent of easy to use, rapid application development tools like the Visual Builder Cloud Service, customers are considering the redeployment of these apps to the new platform.

What are the steps to move an application from ADF to VBCS? Read this informative SOAIS blog [here](#) to know how.

#### 4 ways to help middle managers thrive

It is often observed that organizations promote strong individual contributors to management positions, without any preparation.

Middle managers are an important class of employees, and it is important to groom them to blossom into good leaders. Read this Oracle [blog](#) to gain more perspective.
